Acknowledgments

I am grateful to:

The dozens of cooperative members we have talked with in their homes, meetings, workshops and certificate programs. They are not satisfied with their situations and instead aspire to a better life in community.

The Winds of Peace Foundation, with whose sponsorship we collaborate with organizations with freedom and social commitment.

The Institute of Development Policy (IOB) of the University of Antwerp, Belgium, my academic home where I get re-energized with affection and reflection.

To Johan Bastiaensen, lifetime friend and mentor

Klaus Kuhnekath, friend and teacher.

This book would not be possible without the ideas and interminable moments of reflection maintained over years with Esmelda Suazo, Edgar Fernández, Mark Lester, Steve Sheppard and Freddy Pérez. Thanks to Ree Foltz for book cover design and help with figures.
